Press release

Fürth, March 7th, 2019

GECO ACTION EXTREME – Handgun ammunition with unmatched stopping power

Fürth, Germany – GECO has announced the release of new pistol cartridges: **ACTION EXTREME**. The new cartridge embodies the required features and standards of modern hunting and defensive ammunition, including excellent deformation with deep penetration and high residual mass. By meeting these demands, GECO has ensured that **ACTION EXTREME** can be trusted and relied upon for personal defense and hunt.

GECO ACTION EXTREME is a 9mm projectile that delivers controlled expansion and excellent penetration. The terminal performance results in complete energy transfer and excellent stopping power. The **ACTION EXTREME** is also very versatile, and can be used with confidence in pistol caliber carbines, full size and even sub-compact pistols. The new **ACTION EXTREME** provides the confidence needed for personal protection.

GECO ACTION EXTREME key features:

- **Consistent:** Uniform penetration averages about 28 cm. Very consistent expansion of 23 mm is achieved across the entire velocity spectrum from 329 m/s to 420 m/s. Extremely consistent penetration and expansion in gelatin and clear ballistics.
- **4-Petal stopping power:** Quick expansion with extreme frontal area increase due to the four expanding petals. They guarantee complete energy transfer with well-defined penetration and 100% retained weight.

V_0 : 360 m/s / 1181 fps. – E_0 : 454 Joule / 336 ftlbs – Testlauflänge: 150 mm

- **Function first:** Reliable feeding into the chamber thanks to the round bullet nose. Improved ballistic performance with little velocity loss due to the bullet's aerodynamic shape. Enclosed bullet construction ensures that material does not plug up the hollow point cavity. This guarantees the retention of the bullet's expanding properties.
- **All-purpose round:** Concealed carry – home defense – personal protection – hunting
- **For all barrel lengths:** This new cartridge delivers the same terminal performance regardless if it is used in full-size, compact or subcompact pistols.

GECO is a registered trademark of RUAG Ammotec, a RUAG Group Company

GECO is the abbreviation for the ammunition factory Gustav Genschow & Co., founded in Stralsund, Germany in 1887. Since 2002, this brand has belonged to RUAG Ammotec. Today, it represents a modern, broad and high-quality range of hunting and sport ammunition as well as targeting and observation optics with an attractive balance of price and performance.

RUAG Ammotec belongs to the Swiss technology corporation RUAG Holding AG, which is headquartered in Bern.

RUAG develops and markets internationally sought-after technology applications in the fields of aerospace and defence for use on land, in the air and in space. 56% of RUAG's products and services are destined for the civil market and 44% for the military market. The Group is headquartered in Bern (Switzerland). It has production sites in Switzerland and in 15 other countries in Europe, the USA and Asia-Pacific. RUAG generates sales of approximately CHF 1.96 billion and has over 9,200 employees – 400 of whom are trainees.
